## Professional Summary

After many years of experience as a freelancer and obtaining my permanent residency in Canada. I decided to pursue my passion as a Front End Developer.

I am proficient in building websites from concept, navigation, layout, programming and UX design. I have solid knowledge in mathematics, algorithms, and data-processing logic; highly skilled at managing fast-paced high-volume work and a strong background in management. I am looking forward to growing and improving my skills as a developer.
